

- Add Mobius patron types to the patron blocks table, with the following values:
 - Patron Exp. Date: n
 - Max Owed: \$999.99
 - Highest Level due 9
 - Max Items: Value from “Share limit” in ptype instructions
 - Max Holds: Value from “Share limit” in ptype instructions
 - All other elements: 0

Ptypes 253, 254 and 255 should have 0 for Max Items and Max Holds.

- Edit ptypes that are already in the Patron Blocks Table but have changed:
 - 212 – Max Items and Holds should be 0
 - All Prospector ptypes that are not “local loans only” should have Max Items and Max Holds of 70 (this may be a change if you haven’t updated your patron blocks table since the Prospector max was increased).
